## Stratus ftScalable Storage G2 Multi-Vendor Hardware Compatibility List

In order to use third-party server systems not manufactured by Stratus in a supported ftScalable Storage G2 configuration with Stratus ftServer systems, the third-party server systems must meet the requirements listed in the tables below. To configure your third-party server systems, see the [ftScalable Storage: Installation in Multi-Vendor Environments \(R635\)](#) manual.

**Note:** This information applies only to server systems not manufactured by Stratus. For Stratus ftServer systems, see the *Stratus ftServer Systems: PCI Adapter Guide (R461)* for your system to obtain information about the required driver and supported HBA part numbers.

Contact your Stratus sales or service representative for any configurations not listed below.
